### **REPORT ON ONLINE BRAIN STORMING**

**Date : 12 Aug 2021**

KONARK IDEAL COLLEGE OF SCIENCE & COMMERCE had organized a Session on ONLINE BRAIN STORMING . Student to make an own app .

Brainstorming is a strategy used to generate a number of ideas to help solve a particular problem. Techniques vary but there is a general structure to follow when developing brainstorming sessions. After the problem or issue is presented, students are organized into groups to brainstorm all possible ideas which could solve the problem.

Discussion of these ideas takes place after the brainstorming session ends, usually after a defined period of time. Each idea will be discussed and considered, some ideas will be eliminated, and a final list will be ranked for possible use as a solution toward solving the problem.

Around 8 students had participated in the session and college had given E-Certificate for this session.

Prepared by .

Asst Prof : Unnati Chaudhary
