REPORT ON WORLD STATISTIC DAY

Date: 20thOct, 2020

According to proposed plan of Konark Ideal College of Science and Commerce organised Online mental maths test.

World Statistics Day is held on October 20th. The day celebrates the achievements of the Fundamental Principles of Official Statistics.

Statistics involves the collection, analysing, and interpreting large amounts of numerical data. Statistics are vital. This field of mathematics allows scientists to make new discoveries. It helps industries make safer products. Pharmacists develop more effective medications when using statistics. When predicting the weather, meteorologists rely on statistics to be accurate. Even investors make better financial decisions thanks to statistics.

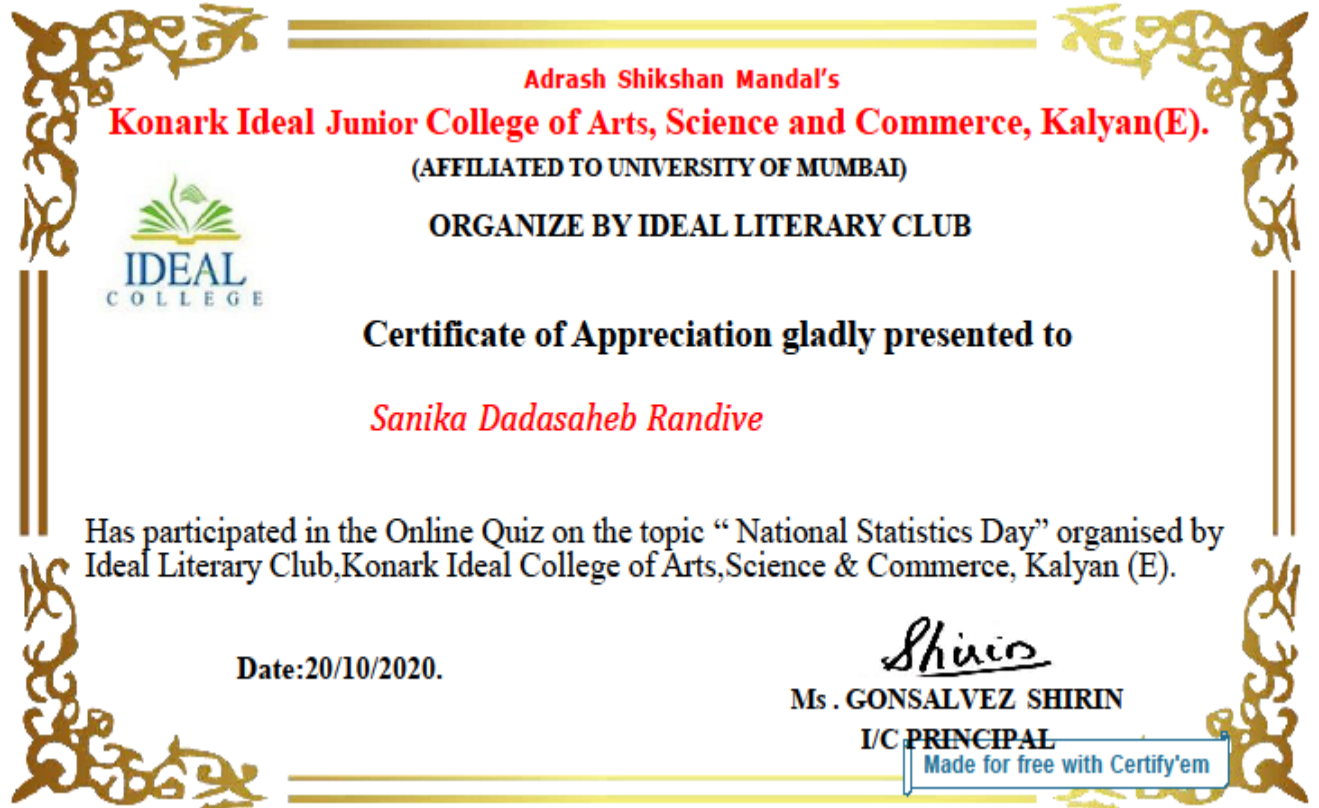

Virtually every industry in the world benefits from statistical research and data. Individuals also use statistics for a variety of reasons. Statistics help to prove facts and make important decisions. Statistics also play an essential role in tracking trends and finding patterns.

For all these reasons, statistics deserve a celebration.
